Our Mission

INSPIRE

We inspire students to attain higher goals by bringing out the best in them through our exclusive programs.
We respect individual needs and avoid overloading the students with technical jargon.
Our mission is to generate interest and curiosity to seek an abundance of knowledge.

EDUCATE

Our mission is to educate through experience. We are transformative and bring out the intellect in each individual. We aspire for the empowerment of our students while ensuring a challenging learning environment that encourages high expectations for success.

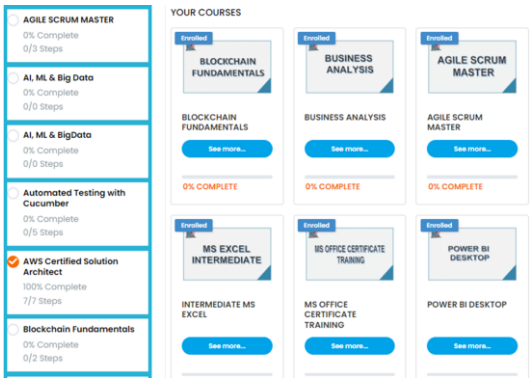
EVOLVE

We assist our students to evolve into successful leaders/professionals in the industry.
We provide a dedicated environment that is conducive for holistic growth and success.

OHIO COMPUTER ACADEMY
Inspire, Educate & Evolve

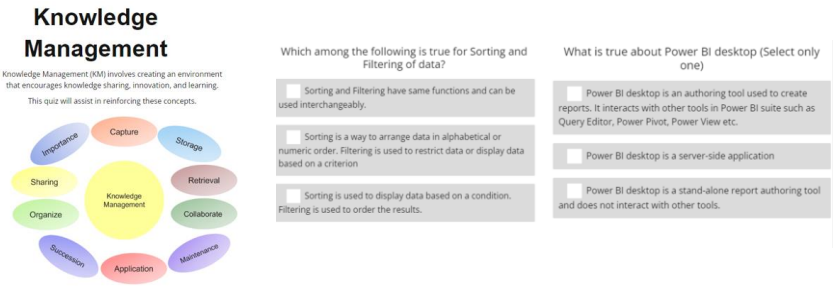
eLearning and Content sharing

Ohio Computer Academy is fully equipped to provide on-site, on-premises, and online training. The comprehensive Learning Management System (LMS) facilitates eLearning and content sharing. Participants have 24/7 access to the LMS system for self-learning.



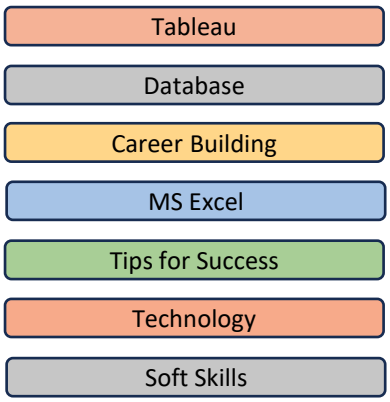
Quizzes and skill Assessments

Ohio Computer Academy continuously uses quizzes and skills assessments to gauge the progress of training participants. These quizzes also aid in revising the concepts.



Continuous Learning

At Ohio Computer Academy, we encourage students to engage in continuous learning. To assist with that, we regularly write blogs covering the latest trends and changes in the technology. Our wide range of blog categories includes:



Founder and President – Chandraish Sinha

As a visionary behind Ohio Computer Academy, Chandraish Sinha possesses more than two decades of experience in the IT industry. His passion for education led to the establishment of the company with a mission to bridge the gap between traditional education and the demands of the modern technology sector.
He has demonstrated his unwavering commitment to IT education by authoring 10+ books on various computer-related topics. As the driving force behind the organization, he personally handpicks instructors and curates course content.
